## GIGANTIC RALLY DAY PLANNED FOR MARCH 29

Governors and Senators Invited Here to Speak

A gigantic rally to be held Sunday afternoon, March 29, in the city stadium, has been planned by the Calloway County Civilian Defense Committee to launch an intensified campaign to sell U. S. Defense Bonds and Stamps in the county.

Both the governors of Kentucky and Tennessee, Senators Barkley and Chandler, Representative Gregory and Representative Pearson of Tennessee have been invited to attend.

In addition, negotiations are going on with the officers at Camp Tyson to secure a contingent of soldiers to attend, to secure Camp Tyson band and if possible to have one of the barrage balloons brought here and flown over the stadium.

The special bond committee, headed by W. Z. Carter and including some 50 representative citizens of the county, held its first meeting Tuesday of last week at the courthouse to make plans for the bond sale campaign, which is to include every household in the city and county.

George E. Querry and Connie Ford are in charge of making arrangements for the rally to launch the campaign. In case of rain, the rally would be held in the college auditorium, which seats several thousand.

If all plans materialize and the weather is fair, a crowd of five to seven thousand is expected to attend the rally.

To publicize the event and the campaign to follow, The Ledger and Times will publish a special Defense, Bond and Stamp issue next week. The Women's Club of Murray is soliciting the advertisements for this issue.

## Father of Mr. Shultz Dies Suddenly

J. T. Shultz, father of Prof. Fred Shultz of Murray State College, died of a heart attack Friday evening at his home in Narrows, Ky. Mr. Shultz was eighty-six years of age, and had been in failing health for some time. Burial took place in Hartford, Ky., on Sunday.

Mr. and Mrs. Shultz left immediately on receiving the news of his father's death to attend the funeral, but Mrs. Shultz was called back to Murray on Saturday night to attend the bedside of her daughter, Miss Jane Shultz, who underwent an operation for appendicitis at the Mason Hospital.

## Nurse Aide Grads to Get Caps and Pins

Presentation of caps and pins will be made at the completion exercises for the first group of Volunteer Nurse's Aides to complete successfully the 80 hour prescribed course, Tuesday, March 24, at 8 p. m., in the little chapel at Murray State College.

The aides will serve 150 hours of volunteer service this year, and by that time will also have completed the 20-hour first aid course.

## Mrs. Mary Barte Tishel Is Claimed By Death

Mrs. Mary Barte Tishel, aged 86, died Friday night at her home in Stewart County, Tenn. Funeral services were held at the home Sunday afternoon, with the Rev. T. C. Ragdale of Nashville in charge. Burial was in the Henderson cemetery.

## Calloway Boys in Army and Navy

The Ledger and Times will endeavor to publish next week a complete list of all Calloway county boys who are now in the Armed Forces. If your boy joined the Army, Navy, or Marines, but was not called by the Selective Service board, we have no way of knowing about it unless you tell us. Please send us the name of your boy.

## Two Calloway Families Ponder Fate of Their Sons in The South Pacific

Lt. Robert McElrath Definitely Not a Prisoner of Japs

Two families in Calloway county are pondering the fate of their sons, following the announcement Sunday by the Navy Department that the U. S. Houston had been sunk recently in the South Pacific and most men aboard lost.

One of these families is Mr. and Mrs. Moss Dodds (see next column) and the other is Mr. and Mrs. W. W. McElrath of Murray.

Monday morning the McElraths received a letter from their son, Lt. Robert W. McElrath, who has twice been reported captured by the Japanese since December 7. The letter was dated February 8 and is the first they have received from him since November 28, which was a letter dated October 2. At that time he was on the U. S. gunboat Wake at Shanghai. Later they received a telegram from him at Manila, stating that he was not a prisoner and was safe. Then, a few weeks ago, the Navy Department stated that it was presumed that he had been captured.

The letter received Monday, however, definitely proves that he was not captured, or if he was he escaped. He told his parents in the letter that he could not tell them what happened or how he got where he was. In fact, he did not say where he was, but marked it out on the letterhead, were the words, "U. S. Houston."

The parents were overjoyed to hear from him, but after reading the letter saw the letterhead that had been marked out, and now fear he was on the ill-fated cruiser when she went down.

The envelope carried no postage. In the corner where the stamp should go were the words, "Sailor's Mail No Postage Available." Under this was a signature, evidently that of the ship postmaster. He said in his letter that the letters he had written his parents in the past had come back to him, so he knew they had not heard from him.

## WOMEN'S CLUB HELPING SOLICIT ADVERTISING

Watch for the special Defense issue of The Ledger and Times next week. The Women's Club of Murray is soliciting the advertisements for this issue.

## Reported Missing

Lewis Chester Dodds, U.S.N.

The first Calloway county boy to be reported among the missing sailors of the U. S. Navy is Lewis Chester Dodds, son of Mr. and Mrs. Moss Dodds, who live about four miles north of Murray.

Word came to them Saturday night from the Navy Department through Sheriff Carl B. Kingins. The telegram was relayed by telephone from Paducah to Sheriff Kingins, and it asked him to notify the family, which he did without delay.

Pvt. Dodds, joined the Navy in May, 1940, and following his basic training at the Great Lakes Training Station, was assigned to the U. S. Houston, on which ship, he spent the remainder of his time in the Navy, according to his mother.

The Navy Sunday reported the sinking of the cruiser Houston recently in the South Pacific in a sea battle with the Japs.

## CITY UNWILLING TO MEET PRICE ON LIGHT PLANT

\$300,000 Asked for Electric, \$200,000 For Water System

The City of Murray is not interested in purchasing the electric and water distributing systems from the Kentucky-Tennessee Light and Power Company at tentative prices quoted at Bowling Green last Thursday, Mayor George Hart stated today.

Prices quoted by representatives for the utility firm were approximately \$300,000 for the electric system, or some two and a half times the sum paid for the properties originally.

Councilmen F. H. Graham and Robert ("Duck") Jones, Mayor George Hart and City Atty. John Ryan represented the city at a meeting in Bowling Green attended by representatives of the power company, the Tennessee Valley Authority, and three bonding firms interested in financing the purchase of all K. T. properties in the state.

The utility firm representatives estimated that the City of Murray would not be justified in reducing electric rates more than 10 percent should it decide to purchase the property at the proposed prices.

The meeting at Bowling Green was held in response to requests from the bonding companies and representatives from six West Kentucky communities were present.

## Mrs. Mattie Smith, 76, Rites at Locust Grove

Funeral services for Mrs. Mattie Smith, 76, were held at the Locust Grove Baptist church Monday afternoon, with the Rev. L. V. Henson and the Rev. A. M. Johnson in charge.

Mrs. Smith passed away at the home of her sister, Mrs. Benjamin Clanton, three miles east of Murray, Sunday morning. She had been ill for some time.

Surviving, in addition to Mrs. Clanton, are another sister, Mrs. Otto Farris, also of this county; a brother, Albert Robertson, of Murray, and several nieces and nephews.

Second row, left to right: Ora James Futrell, Joe Reed Humphreys, Rupert Allen Parish, Robert Elwood Vance, Otis Hubert Cunningham, James Clifton Wilkerson, Charles Lee Wilson, Buford Thomas Wicker, Thomas Ross Sammons, Wilford Lomax Smith, Jesse James McNeill and James Monroe Brown.

Dr. Gartley to Take Place of Dr. Garrett at Mason Hospital

The William Mason Memorial hospital announced yesterday that it had secured the services of Dr. George Gartley, co-founder of the Gartley-Ramsey hospital in Memphis, Tenn., to take the place of Dr. Evan L. Garrett, who is now with the U. S. Army.

Dr. Gartley has the reputation of being an outstanding surgeon. He practiced in Memphis for 21 years and is a Fellow of the American College of Surgeons.

Dr. Garrett, who holds the rank of Captain in the U. S. Army, was called into active duty last month and was assigned to the 32nd Medical Training Battalion at Camp Grant, Ill.

"Dr. Gartley will be at the Mason Hospital for the duration," states S. A. Ruskjler, general manager. "This section is fortunate in having his services, especially for heavy surgery and gynecology."

T. O. Baucum this week enlarged his territory as distributor of Cities Service products, taking in Mayfield and surrounding territory. He now operates bulk plants in Murray and Mayfield.

## Murray Preparing For Many 'Mule Day' Visitors

New Concord Wins 1st Game at State

The New Concord Redbirds came through with a victory this morning over the Rineville team in the first game of the State Tourney at Louisville. The score was 54-34.

"The team looks good enough for State Champs," wired Pat McCullough, coach, to the Ledger and Times this morning.

The Redbirds will play their second game tomorrow (Friday) afternoon at 2 o'clock, against the winner of the Fairdale-St. Xavier tilt.

## MURRAY TOBACCO MARKET HAS TOP AVERAGE

Leads Average for West-Dark-Fired District by 71c

The Murray tobacco market is again this year the leader in the Western Dark-Fired district with an average for sales up to March 12 that is 71 cents higher than the average for the entire district and considerably above the other markets.

Total sales this season up to March 12 (latest figures available) including those that went to the Association for the advance averaged \$12.43 on the Murray market. Averages on the other markets were: Mayfield \$11.68; Paducah \$11.65; and Paris \$11.08. Average for the entire district was \$12.12.

The selling season here is nearing an end. Almost half of the tobacco brought to the floor is going to the Association for the advance. This includes the better grades. Last week 121,295 pounds were sold on the floor for an average of \$10.22. A total of 103,550 pounds went to the pool for an average of \$15.35.

Sales on the three floors the first three days of this week were as follows:

Monday, March 16 - Growers 7,270 pounds brought \$30.82 for an average of \$6.93. (See "Tobacco Market," Page 6)

## Square Won't Be Roped Off This Year As in Past

Monday is the traditional Fourth Monday in March, or Mule Day, in Murray; and a large crowd is expected to be in the city on that day.

The square won't be roped off this year, as was formerly done, it is reported, nor will prizes be awarded. But it will be a gala occasion just the same, with most trading going on at Third and Walnut instead of on the square.

There is more money in circulation this year than ever before, and for that reason many people will be more inclined to come to the city than have in past years. Then, too, many autos will be out of running condition by next year because of the tire situation; a lot of people are inclined to make the best use of them while they do last.

To visit and to trade: That's Fourth Monday in Murray.

## Ben F. Schroeder, 84, Buried Last Saturday

Funeral services for Ben F. Schroeder were held at the Methodist church Saturday afternoon, with the Rev. T. H. Mullins in charge. Burial was in the city cemetery.

Mr. Schroeder, until recently an active business man of Murray, was 84 years of age. He retired last year when fire destroyed his planing mill.

He became ill early last week of pneumonia and succumbed Thursday night at the Mason Memorial hospital. Surviving are his widow; two daughters, Mrs. Jack Farmer of Murray and Mrs. Marshall Berry of Lexington; and a son, Harold of Washington, D. C.

Mr. Schroeder was widely and well-known in Calloway county. A number of years ago he was connected in grocery, undertaking, and furniture and music business at different times.

During World War No. 1, it was planes from Mr. Schroeder's store that furnished music for the patriotic pep rallies held weekly on the Murray court square where hundreds of persons got together to hear addresses and take part in community singing of famous war songs of that time.

Mr. Schroeder, a member of one of this section's outstanding pioneer families, was interested and active in all civic affairs of Murray and Calloway county. He was one of the chosen few who could be called a friend of the late Nathan B. Stubblefield. Mr. Schroeder was a stockholder in a company formed to put Mr. Stubblefield's "wireless telephone" on the market during the early days of the inventor's attempt to sell his masterpiece to the world.

Mr. Schroeder was a quiet but congenial personality and his friendship extended not only to persons of his age but reached out to the youth and was an ever-helping influence to the children of his community.

## 8-Month-Old Son of Elmus Outland Dies

Jackie Ray Outland, 8-month-old son of Mr. and Mrs. Elmus Outland of Brandon, died at the Keys-Houston clinic-hospital last Thursday night.

Funeral services were held at the Poplar Springs Baptist church Friday afternoon, with the Rev. Lloyd Wilson officiating. Burial was in the Barnett cemetery.

Besides his parents, Jackie is survived by three brothers and one sister.

## Pottertown School Gets State-Wide Recognition

As a result of efforts of the people, Pottertown School is the only rural school in Calloway county having electricity, running water and hot lunches.

Two free lunches are served to all sixty students every school day. Children have gained weight; have more energy to devote to study and to play.

The health department in its regular health program gave tuberculin tests to all students; eliminated common drinking cup and interested the Homemakers club in a free lunch program.

Photographs Courtesy Louisville Courier-Journal

Pottertown's two-room school has gotten state-wide recognition during the past school year for its achievements, and it has served as a model for other schools. It was Calloway county's first rural grade school to have electricity, running water and hot lunches, and is still the only rural grade school in the county to have all three.

How come Pottertown has all this? The people of the Pottertown community did it. They didn't suddenly become rich and decide to modernize their school. In fact, the average income of the farmers in the Pottertown community is less than \$450 a year. It is a community with energetic people and once they got started they really did things.

—Mrs. J. A. Outland, wife of

"After getting a new school building, we raised enough money to plant scrubby around the building and to level and seed the lawn."

"Upon suspicion of tuberculosis in the school, we asked the county health department to conduct a survey of the school. The entire student body were tuberculin tested and the reactors to the tests were x-rayed."

"We felt the need of doing away with the public drinking cup and installing sanitary drinking fountains. Plans were made to raise money to carry out this project."

"At the beginning of the school term of 1941 this project was completed. This year the school and the

homemakers club sponsored a free hot lunch for all 60 children. After a few months operation we found the enrollment had increased, the children had gained in weight, and have more energy for work and play."

"As our national defense program is stressing nutrition, we feel that we are contributing our small part toward developing our youth for future democracy."

"A Mother's club was then organized to help sponsor this lunch project."

"The first thing we did was to convert one of the cloak rooms into a kitchen. Cabinets were built and the entire room painted white. A three-compartment sink was installed, a stove and pressure cooker donated, an ice box furnished, and the doors and windows screened. We had a kitchen shower which equipped the kitchen with necessary dishes and utensils."

"Works Progress Administration workers were assigned to this project. They, with the help of the clubs, canned around 500 cans of fruits and vegetables out of the school garden and from the donations of the people of the community. The tank in which this food was canned were also donated. A concrete cellar, with shelves, was provided for the storage of this canned food."

"The government surplus commodities and the donations of fresh eggs, fruits, and vegetables from the people of the community made it possible to furnish two free hot lunches a day to all the student

### FIRST METHODIST CHURCH

Rev. T. H. Mullins, Jr., Minister

9:30 A. M. Church School. Max B. Hurt, superintendent.  
10:30 A. M. Morning Worship.  
6:15 P. M. Fellowship Hour for the College Group.

6:45 P. M. General Young People's Meetings.

7:30 P. M. Evening Worship.

Every person in Murray who does not have a church home in the city is invited to attend all services at First Methodist Church.

The singing of church choir under the leadership of Mrs. G. T. Hicks, director of music, is an attractive feature of the services.

Frederic Johnson leads the congregational singing at the evening services.

Miss Eleanor Hise presides at the organ at the morning services, and Curtis Hughes is organist at the evening worship.

The ministry of song and music at First Methodist Church is outstanding.

The Rev. T. H. Mullins, Jr., Minister, has been honored by being invited by the Ministerial Association of Paducah to deliver a series of noon-day sermons in that city during Holy Week.

The services will be held at the Episcopal Church.

The sermon subjects for next Sunday are as follows: Morning, "Does God Care?" Evening, "Living Close to Jesus."

### FIRST CHRISTIAN CHURCH

Charles Thompson, Pastor

Sunday Services:

Bible School 9:30 a. m. W. B. Moser, superintendent. Attendance goals today—175; next Sunday 200, Easter 250. The cooperation of the entire congregation is needed to obtain these goals.

Morning Worship—10:30 a. m. The pastor will bring the fifth of a series of Pre-Easter Sermons.

Christian Endeavor—6:30 p. m. Miss Ruth Nall, Student Director, in charge.

The pastor will leave Sunday afternoon to begin a revival meeting at Ashland, Ky. Due to this fact there will be no evening service. Mr. and Mrs. Paul M. Page, who assisted the pastor in a revival here this fall are in a meeting with the First Christian Church at Mayfield. We are invited to send a delegation Sunday night.

NEXT SUNDAY: Rev. Charles Brooks, district secretary, will fill the pulpit both morning and night. The pastor will be home for Easter Sunday.

MEMORIAL BAPTIST CHURCH

Bro. Hicks Shelton of Georgetown, Ky., a former Murray boy, will preach at both the morning and evening hour Sunday.

You are welcome to all services.

FIRST BAPTIST CHURCH

Preaching by the pastor morning and evening.

Morning subject, "Forsaken"; evening subject, "Forgotten".

Church School under the care of faithful officers and teachers with classes for all ages beginning with the Cradle Roll Class. Classes meet in closed, separated rooms for the study of the Bible lesson for the day.

Training Union under the care of faithful officers and helpers meets every Lord's Day at 8:15, with a Union for each age, beginning with the Story Telling Hour for the smaller boys and girls.

Intercession hour every Wednesday evening at 7 o'clock. This meeting is largely devoted to the ministry of intercession, perhaps the most outstanding need of the individual Christian and church in this present hour when a struggle of world wide dimensions is now fiercely raging until more than one-half of the world is engaged in fearful, brutal, savage war or war conducted by nations of sav-

ages, at least insofar as this war is concerned are they savages.

The church and pastor earnestly invite every one to worship here and enjoy the gospel message in sermon and song and to receive the uplift of a genuine fellowship.

CATHOLIC SERVICES

Catholic services will be held at 602 Olive Street at 10 a. m. Sunday, March 22.

## Improved Uniform SUNDAY SCHOOL LESSON

By HAROLD E. LUNDQUIST, D. D., Of The Moody Bible Institute of Chicago. (Released by Western Newspaper Union.)

Lesson for March 22

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JESUS THE MESSIAH

FORETELLS HIS DEATH

LESSON TEXT—Mark 8:31-37.

GOLDEN TEXT—For whosoever will save his life shall lose it; but whosoever loses his life for my sake and the gospel's, the same shall save it. Mark 8:35.

Jesus came into the world as the Redeemer of men—and that means He came to die. The prophets who wrote centuries before His coming presented Him as both the suffering and the reigning Messiah. However, to the minds of the Jewish people only the idea of His glory and kingship was acceptable, not of His suffering and death.

Apparently His own disciples had this same impression and it therefore became necessary for Jesus as He came to the last months of His earthly ministry to speak plainly to them about these matters.

I. Recognition of Christ by Faith (vv. 27-30).

As a foundation for right thinking on any spiritual question there must be recognition of Christ's deity. He drew forth such a confession from the disciples by asking who men said that He was. Notice that while there was difference of opinion, all had a high opinion of Him, calling Him John the Baptist, Elijah, or one of the prophets. They knew that a great man was in their midst, and he had admitted it, even though they hated and opposed Him. But it is not enough to accept Christ as a great man, as a teacher, a prophet, or an example. Nor is it enough to tell what others think of Him. The question quickly becomes: "What do I think?" Have you answered that question? What will you do with Jesus Christ?

Peter responded with a straightforward, heaven-born confession of Christ as the Son of the living God (cf. Matt. 16:16-18) upon which Christ established His church.

II. Rejection and Crucifixion Foretold (vv. 31, 32).

The foundation of faith in Him having been laid, Christ plainly laid before the disciples the fact of His coming rejection and death. Note the word "must" in verse 31. "There was an imperative necessity for these things. But why must He die? This question is fully answered elsewhere in the Bible (John 8:14; Heb. 9:22; Isa. 53:4-6; II Cor. 5:21; Gal. 3:13; I Pet. 2:24). There could have been no salvation for any sinner if He had not died (John 3:16, 18; II Cor. 5:21; Rom. 3:20-26) (John W. Bradbury).

Note also that He "must rise again" (v. 31). He died for our sins, but "was raised again for our justification" (Rom. 4:25).

III. Rebuke of Unbelief (vv. 32, 33).

Peter, quick to accept Jesus as the Son of God, permitted Satan to bind his mind to the necessity of the cross, and thus became a stumbling block of unbelief, calling forth a severe rebuke from Jesus.

It is a striking and humbling thought that the very one who moment before spoke such acceptable words of recognition of Christ's deity could by unbelief so quickly become the tool of Satan. "My soul, be on thy guard" lest such temptation overtake thee!

May we also learn from this incident that we do well to weigh the words of even good men lest in a moment of weakness or unbelief they say that which may lead us astray. God's Word alone is sure!

IV. Requirements of Discipleship (vv. 34-37).

Following the Christ of Calvary for a willingness to say "no" to self (literally, to deny oneself) and to follow through with Him on the path of shame and crucifixion. No self will and no compromise are permissible to Christ's disciples.

Faithfully to attempt to hold one's life for self is to lose it. That painful loss has left brokenhearted, wrecked lives all along the path of a man's history. But why should any one do it? Equally foolish is the one who supposes that this world has anything to satisfy the human soul. Assuming the possibility of the impossibility—that is, attaining the whole world as one's own possession—to do so at the cost of one's soul would be an indescribably poor bargain.

What then shall we say of those who harbor their eternal souls for a nest of porridge, a moment of sensual satisfaction, or for a few paltry dollars? "What shall a man give in exchange for his soul?" It is the unanswerable question.

CEDAR LANE

This Monday morning finds us entering spring and leaving old man winter behind. The daffodils and Crocuses are peeping through their bright flowers of yellow and gold to cheer us on in this fight for Victory.

Mrs. Elmo Burton has been very busy for some time with complications.

Albert Miller is able to be out again after a siege of flu.

Finis Futrell and Sam Givens are at work near Calloway Town tearing down a house Mr. Futrell purchased in the TVA area.

Ellis Shoemaker, Hardie Miller, Taylor Buchanan, Jay Futrell, George Shoemaker and Carlton Buchanan are all in Dover, Tenn., trading.

Mrs. Faye Futrell visited Mrs. Charles Rose Thursday afternoon.

Mrs. Thula Buchanan has been on the sick list for several days.

Miss Edna Mae Rose returned home Sunday from spending a week with her grandparents Mr. and Mrs. Robert Farris of Puryear, Tenn.

Miss Georgia Allen visited Mr. and Mrs. Tom Pool near Murray last Monday.

Mrs. Duncan Holt was taken ill last Saturday. We wish for her a speedy recovery.

Mr. and Mrs. Charles Rose and Will Allen were Sunday visitors in the home of Mr. and Mrs. Robert Farris.

Mrs. Robert Farris remains unimproved at her home east of Hazel.

Our grades in school are out and now the children will be at

home to help feed the chickens and care for pigs, which I am sure all will enjoy.

Miss Dollie Ray left for Paris, Tenn., Saturday afternoon to accept a position.

Edward Pitts was called to come back to the Army on March 8. He left immediately for Fort Oglethorpe, Ga.

Now they are calling for the women to help in the war by volunteering for service, or milking cows, feeding hogs, and raising chickens, buying bonds and stamps and helping the Red Cross. How many of us are doing our part?

## South Pleasant Grove

Bro. T. H. Mullins, pastor of First Methodist Church in Murray, had for his subject last Sunday morning "The Land of Beginning Again", in which reference was made to being born again, born of the cleansing blood of Jesus.

Saturday afternoon in Murray we had the pleasure of meeting with two of our sister correspondents of the Ledger and Times, Mrs. Katie Simmons, Macedonia correspondent, and Mrs. Charles Rose, correspondent from Cedar Lane. Both live on Hazel Route 2. I had previously met Mrs. Simmons, but glad to meet her again.

Charley Lassiter for many years a resident of this vicinity but for the past 35 years of Paducah, was greeting friends in Calloway Saturday.

Congratulations to Mr. and Mrs. Reed Brandon on the recent arrival of a fine daughter.

Jo Humphreys, son of Fisher Humphreys, formerly of Cross-land and Jack Wicker who worked last year in this vicinity, have been called to service. Hubert Cunningham who was a very helpful church worker at Pleasant Grove, also left March 11 for a training camp. Best wishes to these and all others. Had our own sons, Onyx and Ellis Smotherman (who in infancy went to Jesus) been living, they would have been in the draft age for their country. My prayer is that God's guidance go with every one of you.

Although Christianity is considered the only hope of the world, the International Sunday School Council of Religious Education reports discloses that there are 27 million American children nominally Protestant not enrolled in any Sunday School or Cradle Roll department and 8 million American children growing up in non-church homes.

## Lassiter Hill News

Visitors in the home of Mr. and Mrs. Odie Morris Monday of last week were Mr. and Mrs. Glen Orr, Mr. and Mrs. D. B. Byars, Mrs. George Jenkins, Mrs. Olan-Paschall, Mr. and Mrs. J. C. Paschall, Mr. and Mrs. Gayle Morris, Mr. and Mrs. Charles Morris, Inez Byars and Talmage Puckett. The above were visiting Mr. and Mrs. J. B. Wicker in the Morris home. Mr. and Mrs. J. P. Wicker visited relatives in Paducah from March 5-8.

Olan Paschall is much improved.

Mr. and Mrs. Talmage Puckett were guests of Mr. and Mrs. Arthur Wicker the first half of last week.

Congratulations to Mr. and Mrs. Reed Brandon on the recent arrival of a fine daughter.

Jo Humphreys, son of Fisher Humphreys, formerly of Cross-land and Jack Wicker who worked last year in this vicinity, have been called to service. Hubert Cunningham who was a very helpful church worker at Pleasant Grove, also left March 11 for a training camp. Best wishes to these and all others. Had our own sons, Onyx and Ellis Smotherman (who in infancy went to Jesus) been living, they would have been in the draft age for their country. My prayer is that God's guidance go with every one of you.

Although Christianity is considered the only hope of the world, the International Sunday School Council of Religious Education reports discloses that there are 27 million American children nominally Protestant not enrolled in any Sunday School or Cradle Roll department and 8 million American children growing up in non-church homes.

## Containers Will Be Put on Courthouse Yard for Scrap Iron

Something new will soon be added to the courthouse yard with the intensification of the Salvage-for-Victory campaign in this county.

Two large containers will be built, one for scrap iron and old rubber and another for dry paper and rags.

It is hoped that all farmers, when they come to Murray next Monday (which is the Fourth Monday in March) will bring in their scrap—dry paper, dry rags, scrap iron and steel and old rubber.

It is estimated that there is enough scrap iron and steel on the farms of America to build as many battleships as there are now afloat.

Many farmers believe they have no scrap iron on their farms whereas if they begin looking they often find a large quantity scattered about.

Scrap iron and paper can be sold in Murray at Shroat Bros. market or it can be put in the containers on the courthouse yard where it will be sold by the Junior Red Cross. If it is donated, the JRC will take the money. There is no objection to a farmer selling his scrap and keeping the money—what is objectionable is his not gathering up the scrap and bringing it in so it can be sent to factories and put to use again.

**Typists, Stenographers Needed in Washington**

Another urgent call has been received by the Sixth Civil Service District Office in Cincinnati for Stenographers and Typists for duty at Washington, D. C.

These employees are needed in various Departments in Washington engaged in the prosecution of the war.

Special examinations are being held in localities throughout the States of Ohio, Indiana, and Kentucky so as to provide an immediate opportunity for qualified persons to render war service in a civilian capacity.

Further information may be obtained by calling on C. Wesley Waldrop, Local Secretary, Board of Civil Service Examiners, Post Office Building.

**Announces Winners at Beauty Shop Opening**

Mrs. Mabel Sirex, who held the opening of her new beauty shop in the Ledger & Times building last Thursday and Friday, has announced the prize winners at the opening. Prizes include permis, manicures and hair sets, manicures and facials. Prizes were determined by the drawing of cards with the names of visitors on them.

Prize winners are as follows: Mrs. Rudolph Thurman, Nellie Short, Anna Martha Hall, Mrs. A. Carman, Virginia Dare Kettler, Frances Sleds, Ella Beale Grant, Josephine Crawford, Marjorie Bowden, Catharine Fehrer, Dora McCracken, Tootsie Holt.

**Winners in Extremopore Contest Are Announced**

Wesley Reynolds of Southern Illinois Normal University, Carbondale, and Ralph Crouch of Murray State Teachers College, were judged district winners Monday in the inter-American extempore discussion contest, sponsored by the coordinator of inter-American affairs.

They will compete on April 16 in regional contests at Atlanta, Ga. Regional winners will go to Washington and will be given trip to South American republics.

Western Kentucky and Southern Illinois were represented in the contest here.

We sure are still having plenty of rain which is making every thing look green. But would like to see some beautiful sunshine and warm weather.

Mr. and Mrs. Rolin Howard are on the sick list this week with flu.

The singing was very much enjoyed Sunday afternoon at Lynn Grove.

Mr. and Mrs. Jeff Armstrong, Mrs. Maude West, Mrs. Edd Howard and children, Mr. and Mrs. Charles Morris, and Mr. and Mrs. J. C. Paschall were Sunday afternoon guests of Mrs. Rebecca Howard and daughter Mrs. Margie Richardson.

"I just want to take space here to compliment Mrs. Sirex on her beauty shop in Murray. It is so beautiful. Everyone in the shop is so kind and makes you feel at home when you visit them."

There hasn't been very much spring work except plant beds and barn wood cutting. It has been too wet for any other work.

So sorry to know the little daughter of Mr. and Mrs. Marvin Parks fell and broke her collar bone. Hope she is recovering.

Mr. and Mrs. Rex Tabors and children of Murray visited Mr. and Mrs. Aubrie Miller Sunday.

Miss Dulcie Miller is the guest of Mr. and Mrs. Rex Tabors this week.

Mr. and Mrs. Woodrow Key of St. Louis are visiting relatives here for a few days.

Diversified Farming  
For  
Calloway County

Local FSA to Organize Marketing  
Association at Meeting Saturday

W. A. (Bill) Campbell, former agriculture teacher at Kirksey, will visit with old friends Wednesday, March 25. Mr. Campbell resigned from the vocational agriculture profession a few years ago to work with the Farm Security Administration. It will be of interest to Bill's many friends of Calloway county alone for them to know that he has become a success with FSA.

He is now state specialist in organizing cooperatives and associations with the low income farm families.

Carl T. Hadden, RR Supervisor, Farm Security Administration, Calloway County, told a story about the "leaks in the farmers' program" in a meeting held at Kirksey, that reminded those present of their dear old agriculture teacher. The former Ag teacher of Kirksey has been working and is still aiding low income farmers to stop those "leaks" in their farm program in order to help them live better from the farm.

On Wednesday, 1 o'clock p. m., March 25, at the County Courthouse, W. A. Campbell will help Mr. Hadden organize a Purchasing and Marketing Association that should enable the members that participate to save several hundred dollars. Yes, co-operatives saved farmers thousands of dollars last year.

Mr. Hadden said the only way for the membership to include farm families other than FSA families would be for every farm family to have a member of their family present to represent them. If this Association is organized, you will need to be present to learn how you can save dollars and you will want to know that the division of expenses and profits are divided in an equitable manner and also how to keep the control of the organization in the hands of the farmer members, he said.

Mr. and Mrs. William Stewart and daughter Doris Sue spent the past week-end with his mother, Mrs. Mollie Stewart of St. Joseph, Mich.

Living From The  
Farm

By RACHEL ROWLAND,  
Home Demonstration Agent

There have been rumors circulating that there would be no tin cans, glass jars, lids and rubber rings, or a very limited quantity, for home canning this year.

From authoritative sources come information that there will be sufficient quantities for home canning this year, provided the supplies are used to best advantage. The war Production Board gave this assurance to the office of Agricultural Defense Relations, although the Board has not yet issued a formal order covering supplies for home canning needs.

Some kinds of lids may be made of materials different from those we are accustomed to but they will be satisfactory. Rubber rings will be made of good quality rubber.

Other methods of food preservation should be utilized in order to have plenty of jars for those foods that cannot be preserved in any other way. Many foods may be dried, put in brine or smoked, without appreciably changing the food value. While the flavor and texture of the foods may be changed it is a challenge to homemakers to prepare these foods in ways that are palatable, attractive, and different.

Another way of conserving jars and rubbers is to have a late garden or even a year-round garden. With plenty of fresh greens, beans, tomatoes, etc. from the garden until late fall the non-producing season is shortened, consequently fewer jars need be filled.

So go ahead with your plans for a bigger and better garden this spring, with the assurance that there will be methods of preserving the foods for winter use.

DO WE HAVE COTTON INSURANCE?

Say, that means we can have cotton income next year even if weevils, drought or something else ruins our crop.

739 Cotton Growers  
Eligible for "All-Risk"  
Insurance on '42 Crop

Approximately 739 Calloway county cotton growers are eligible for "all-risk" crop insurance on their cotton planted this year. W. E. Dick, chairman of the county Agricultural Conservation Association, said today.

Premium rates have been set up for each cotton farm in the county. Mr. Dick said, and the insurance contracts, covering losses from all unavoidable hazards, are now being written by county and community AAA committees.

The last day for filing application for this insurance on the 1942 cotton crop is March 31, the county chairman advised.

Each individual producer is required to file the application for insuring his share of the cotton crop. Mr. Dick pointed out. This means, he said, that owner and tenant may not file a joint insurance application, but each must apply for insurance on his share of the crop.

The grower may insure either 50 per cent or 75 per cent of the normal yield for his farm.

The cotton insurance premiums are paid by means of non-interest bearing commodity notes which are part of each application. Mr. Dick said. If the application is accepted, the cotton grower is

20 Women Enrolled  
In Home Nursing

Twenty women are now enrolled in the new home nursing class which meets on Tuesdays and Thursdays in the home nursing rooms in the Peoples Savings Bank building. The class is taught by Mrs. Harry Fenton, who is assisted by Mrs. Clarence Williams.

Those enrolled are: Mrs. Foreman Graham, Mrs. L. L. Daniel, Mrs. Wallace Belue, Mrs. George Holland, Mrs. Zelma Carter, Mrs. Charles Stewart, Mrs. Carrie Hendon, Mrs. Peter Kuhn, Mrs. Hilda Street, Mrs. Ed Dluguid, Jr., Mrs. Milton Outland, Mrs. Rex Dluguid, Mrs. Hervey Elliott, Mrs. Mavis Mardis, Mrs. Jesse Washburn, Mrs. Bettie Robertson, Mrs. Otis Valentine, Mrs. Fred Cochran, Mrs. W. pledged to pay to the Federal Crop Insurance Corporation the amount of the premium either in cotton or its cash equivalent. The maturity date of the premium note will be October 20, 1942, and the farmer may arrange to have the premium deducted from his other farm program payments, Mr. Dick said.

Planning Meeting  
Held at Mayfield

The District planning meeting of the Kentucky Federation of Homemakers, met at Mayfield, Saturday, March 14, in the club rooms of the Graves county Homemakers.

Mrs. Harrison Randolph, district chairman of Kentucky Homemakers Federation, presided at the morning meeting when plans were made for the annual District meeting, which will be held May 1. Mrs. Hansford Doran, Calloway county president, invited the meeting to be held in Murray this year.

The guest speaker for the district meeting will be Dr. Allen Stockdale, National Association of Manufacturers, New York, while the theme for the day's program will be, "It All Depends On Me". Other speakers will be Mrs. P. W. Adkins, state president, and Miss Myrtle Weldon, state leader of home demonstration agents.

At the planning meeting in the afternoon, the following county chairmen held committee meetings, with the district chairman presiding: County Presidents, Speakers Bureau, Citizenship, Publicity, Reading and Program Conductors.

Following this the group reconvened to hear recommendations made by each committee to further Homemakers work in the Purchase District.

It was decided not to have a district Homemakers camp this summer, but instead to have some kind of county recreation program for the Homemakers.

Lunch was served by the Graves county Homemakers.

Will Begin Laying  
Brick On Fine Arts  
Building in April

"If we have good weather we will start laying bricks on the second story of the new fine arts building within the next 30 days," stated Rex Huie, WPA supervisor in charge of construction. "We have all the materials we need on the ground with the exception of a little steel which should be shipped this week," he added.

The work on Murray State's newest building was at a standstill from December 15 until February 14 due to a shortage of materials. "The total cost of the building will be around \$150,000," said Mr. Huie. "This is about as close as we can estimate at this time."

War Board Urges  
Growing of Hemp;

Promises \$8 Bushel

At a meeting of the Calloway County U.S.D.A. War Board, at the County Agents Office Saturday, March 14, it was agreed that Calloway County farmers should be urged to grow at least 300 acres, or 1/110 of the state goal of 33,000 acres, this year to help meet the need for seed production in order that large scale production of hemp for fiber may be started in 1943. Only the best of Calloway County land, especially the fertile and well drained creek and river bottoms or extra productive upland, should be planted to hemp in the opinion of County Agent Jno. T. Cochran after discussing production problems with Soils and Crops Specialists from the College of Agriculture of the University of Kentucky. Seed for planting must be applied for at the County AAA office. The cost of seed per acre will be about \$1.40, and since hemp is a narcotic a permit, costing \$3, must be secured by each grower regardless of the amount to be grown. Hemp acreage this year will not count in any way against farm program allotments.

Definite seasonal instructions on the planting, cultivation and harvesting of hemp for seed will be given direct to growers by the College of Agriculture, University of Kentucky, through the county agent's offices; also by AAA committees in each county.

1,175 Men in County  
to List Their Skills

The 1,175 men (ages 20-21 and 35-44) who registered recently in Calloway county for military duty will soon be required to list their occupational skills, if they have any, needed in war production industries, it was announced last week.

A special questionnaire will be sent the men through local draft boards in an inventory of America's male labor resources. Paul V. McNutt, social security administrator, said he hoped the questionnaires ultimately would reach all men between 18 and 64 and that this would give the United States employment service complete information on the work skills of 40,000,000.

In February, he reported, 7,000,000 workers were on the pay rolls of war industries, but he predicted 10,000,000 more would be needed to man the plants when they reach maximum output.

**Attention...  
Milk Producers**

Please assist us by observing the below listed items:

1. Rinse all cans, buckets, strainers, etc., with a chlorine solution just before each milking. Wash every cow's udder in chlorine water and dry with clean cloth before milking.
2. Immediately after straining through cotton pad strainer, set in half barrel of cold water and stir until all animal heat is removed.
3. Never add warm milk to cold milk. Milk so mixed is bad and often sours (cool morning's milk thoroughly before adding to night's milk).
4. Have your milk ready so that your driver can get started at least one hour earlier than at present. This applies especially to the first customers on each route.
5. Put your milk at the roadside to save driver's time. If there is no natural shade, place a wet sack over the can.
6. Remove the lid and air your empty cans upside down in a clean place until used next time.

Federal and State Pure Food authorities are demanding better milk be used in all manufactured milk products.

### • HITTER READY TO STRIKE

The Germans have announced their spring offensive against Russia will not get under way before summer. That means, of course, they are ready to strike now. The surest thing about Nazi propaganda is that it says exactly the opposite to what the Germans expect to do, so we may expect the worst in Russia and expect it sooner than anticipated.

Also the Japanese "peace mission" to Moscow probably means the Japs are ready to launch their offensive against Russia. Puffed up with their victories over the United Nations it would be like the Japs to take on another formidable enemy before her two present ones recover from the first treacherous blows struck.

All of which may cause the war to end sooner than otherwise. The thinner the enemy has to spread himself the better chance we will have to kill him in his home den at Tokyo, where he must be killed for us to win.

It would be a terrible ordeal for Russia to have to fight Japan in Siberia, but the chances are that Stalin has counted on doing this all along. What we do in the way of supplying equipment will probably decide the Russian situation.

### • WALKING NOW POPULAR

There is a considerable increase in pedestrian traffic these days, and indications point to the healthful practice coming into its own this spring as the warm air invites us out of doors and causes old automobile tires and tubes to blow out.

We are slow to change our habits. The average person is ready and anxious to make any sacrifice necessary to help our nation, but we hardly ever change until we have to.

Going back to the simple ways of life actually will be less trying on older people than the youngsters. As a matter of fact, there will be much of it they like better than the fast pace of modern times.

The young generation, however, has never known anything except an unlimited supply of rubber tires, fine automobiles and high test gasoline, all of which must be used now for war purposes. To do away with automobile transportation is to change their way of life entirely.

And since it must be done we may as well recognize the advantages of using our legs and feet for transportation purposes. Walking is a healthful practice. It is certainly more economical than driving a car and it insures more regular habits because we are not so inclined to make unnecessary trips on foot as we do in motor cars. There's a lot of pure junk about the advantages of the old days when life was simple, but the walking part of it will do us no harm. It is the best exercise known and is recommended for those who can scarcely stand on their feet, as well as the more robust members of society.

### • LABOR PLEDGES "NO STRIKES"

An Associated Press dispatch from New Orleans quotes Holt Ross, southern organizer of the American Federation of Labor, as saying "there will be no strikes and no labor stoppages" on an order for 200 liberty ships placed by the Maritime Commission with the Higgins Industries, Inc. This is the nation's largest single shipbuilding contract.

Declaring "we'll build those ships ahead of schedule in ever increasing numbers, rapidly and efficiently" the labor leader said "our task will not be completed until Nazism and Fascism are driven from the face of the earth."

It is refreshing in the extreme to come across a news item of this sort, among so many telling of strikes, work being held up, the dire need of guns and ships, and other reports of a distressing nature. It makes one feel that there are many other labor groups who, while not in quite such a spectacular manner, perhaps, nevertheless are determined to do their dead level best to produce material to fight a common foe. While such a spirit prevails there is no doubt about the outcome of the war, nor the unity of the American people.

**Red Cross Roll Call Won't Be Held in '42**

In an effort to relieve in some measure the increasing burden on men and women in all communities who are engaged in money raising efforts during the war, the American Red Cross has decided to postpone its regular 1942 roll membership roll call and held it simultaneously with its next War Fund Campaign early in 1943. Chairman Norman H. Davis announced today. Authority for the Chairman to make this combination was voted by the Central Committee at its meeting on March 2.

Chairman Davis said that the current War Fund Campaign was going to be a successful conclusion. Having recently asked for a generous over-subscription of the original minimum goal of \$50,000,000, Chairman Davis revealed that 2547 chapters now report a total of \$62,122,000. He explained that a \$60,000,000 objective will be reached during the month of March.

### This Week On The Home Front

Donald Nelson's recent speech was vibrant with confidence and accented with a stern determination that American industry, management and worker, will be rapidly mobilized for all-out war.

The strategy on the "Home Front" now stands out in bold outline: conversion of industrial plants to war purpose—hard work for farmer and laborer, conservation and priorities to insure supply of materials, price fixing and rationing to protect the consumer.

For everybody it looks like labor and patches and taxes for the duration.

**Perk:** Administrator Leon Henderson put price ceilings on 90 per cent of pork products to stop profiteering. Order applies only to packers, wholesalers, processors and slaughterers. OPA found Chicago prices to farmers already above 110 parity. With canned fruits and vegetables already ceilinged, much is already done toward cutting the nation's grocery bill.

**February 28** price ceiling on domestic wool, applies to wool on a clean basis only—and does not establish a 37-cent ceiling for prices growers can receive for grease wool sold on the farm. This statement is made jointly by Claude R. Wickard, Secretary of Agriculture, and Price Administrator Leon Henderson, because of evidence that certain wool dealers have been deliberately misrepresenting the facts in their negotiations with wool growers and claiming the regulation prohibits them from paying more than 37 cents for grease wool on the farm.

The figure represents the average farm price for grease wool as of December 15, and was used merely as a statutory basis for calculation of the clean wool maximums established.

The deliberate misuse of the 37 cents base figure to deceive farmers into selling their grease wool without free negotiation is reprehensible, said Mr. Wickard and Mr. Henderson.

Home radio manufacture is stopped after April 22, but plans are being devised to make stocks of materials and parts to keep the 60 million sets now in 67 per cent of the homes in repair.

Manufacturers of rubber tired farm tractors ends May 1 by War Production Board order: rubber shortage.

WP is thinking about ban on new home washing machines for big manufacturers April 15; for small ones, May 15.

Rationing of all kinds of trucks and trailers started March 8. WPB and Office of Defense Transportation will handle the work.

Mr. Henderson moved to halt "inflationary and unfair" wholesale price fixing on home refrigerators, following freeze of stocks February 14. He "requested" that prices be set back to February 2 quotations.

After taking cuffs off pants for new WPB announced intention to freeze the existing "blueprint" of judges' 1942 apparel to save material. Idea is to keep dresses now in use from going out of style. Order is expected any day.

Store and restaurant owners worried about repair parts, and material for their refrigeration will be provided for.

Mr. Henderson denies that Draft Order stopping her ships from carrying coffee and cocoa to United States will affect coffee supply, says American ships can handle it, and warns against pinkey hearing.

Government asks that totally worn out tires be turned in to junk dealer or charity organization. Mr. Henderson thinks junk dealers may have a lot of them lying around.

Military and war industries need all the 16-millimeter sound picture movie machines obtainable, and government is appealing to all individuals and organizations, even schools, to sell them to the government.

Should Mr. Nelson WPB Chairman announced a plan for monthly checkup to ascertain how rapidly industries are converting their plants and how closely their production to contract schedule. If plants drag behind, reason why

NUMBER 14  
Week ending March 15

Except for further advances by the Japanese eastward in the Indies toward the northern coast of Australia, the situation on the war fronts of the world has not materially changed during the week.

Further details of the struggle in defense of Java a couple of weeks ago have been released through the official communique of the Allied Nations. Those communiques have told of naval losses suffered by the Allied Nations more than two weeks ago, and so as such they do not materially affect the existing situation in the Indies except as they lessened for the moment the strength of allied naval forces in the Southwestern Pacific area.

**THE RUSSIAN FRONT:** Again this week the Russians have officially reported slow but steady advances along the whole front. The fighting has increased in savagery due to increased resistance the German armies recently.

Such speculation has existed since the Russians, stated early in the week that they would take the initiative in the spring and launch an all-out offensive along the whole front from the Baltic to the Black Sea. They report also that they have massed new armies of millions of men behind their present lines for use as soon as the

is asked. War agencies won two great victories, against evaders.

War Production Board went into Federal Court in Chicago and obtained an order forcing Chicago Alloy Products Co. to let WPB agents see its books relating to priority order violations. The court said sentence to company officers if they continue violation of orders issued by Director of Industry Operations. Company was charged with dealing in scarce metals and the court injunction was the first of its kind since war emergency.

In Norfolk, Va., the Federal District Court upheld the tire delivery freeze order of December 11. One company tried to mandamus a dealer to sell it some tires without Price Administration approval. The court upheld the validity of tire rationing.

Conservation and substitution Branch of the Bureau of Industrial Conservation lists materials which are scarce. In all 126 are listed as scarce, or unavailable for civilian use. 64 must be substituted, 62 must be conserved. The two groups cover nearly all essentials. Clay products like bricks for throwing or building are still plentiful. There is still a supply of Cellophane.

Those capsules of Vitamin A they sell in the drugstores are made from the concentrated oils of fish livers, like cod liver. Japan and Norway were our principal previous sources. Defense needs and stoppage of imports moved the government this week to urge less use of the capsules. Consumers Division points out that certain vegetables contain Vitamin A, wrapped in yellow and green. Almost any yellow or green vegetable has it.

In connecting with vegetables as a war diet the city people are being urged to cultivate victory gardens to put away the mud and the mashe and the nibble for the plain old hoe. War may teach many lessons, not the least important of which is to know the distinction between a green pea cooked fresh from the vine, and one which traveled all the way from Texas.

## It's LAWN and GARDEN TIME

### Sixty-Eight Neighborhood Leaders Appointed in Calloway County's Victory Garden Campaign

#### COUNTY AGENT NAMES LOCAL MEN TO AID IN LIVE-AT-HOME PROGRAM

County Agent John T. Cochran this week named 69 neighborhood leaders in Calloway county to promote Victory gardens and the Live-at-Home program.

The Live-at-Home program which the University of Kentucky extension service is sponsoring for the state this season calls for a garden at each home participating that has at least one-tenth of an acre for each person in the family.

Several hundred families in this county have already signed up to participate in this program. On the enrollment card the family agrees to produce at least 75 percent of the foods needed by the family for the year. On the back of the enrollment card is a score card.

Farmers who produce three-fourths or more of their food supply will be given certificates of achievement signed by Gov. Keen Johnson and J. Edgar Hoover, U. S. Attorney General.

Farm families are asked to have a tenth of an acre of garden per person; at least 15 kinds of vegetables, a supply of home fruits, can at least 100 quarts of food per person; store at least seven bushels of potatoes, root vegetables and free fruits; 10 cabbages and a gallon of kraut; five quarts of dried beans; a gallon and a half of sorghum or honey per person; produce at least three bushels each of wheat and corn per person for meal, flour and breakfast food; have a quart of milk per child and a pint of milk per adult per day, and a half-pound of butter each per week; at least 15 chickens per person to replace old hens and for eating; and five hens per person for laying eggs; and at least 100 pounds of meat per person.

#### GREEN CREEK

Oh yes, Green Creek has been on a rampage for nearly a week, but I guess it is best to be that way so fish can circulate up the creek and get caught by me and others. Later when "them good old Yaller dogs" come around and everybody feels like a million dollars I want to go fishing. There is a time that comes around every year that makes you feel that way. Gee but I am feeling lazy already!

Miss Pearl Thompson, who has been on the sick list for some time, is reported no better at this time.

The wind blew pretty hard here Thursday night and moved Harlan Lawrence's garage and Bob Alexander's chicken house off their foundations.

# Concord Redbirds Annex First Regional Net Crown

## McCuistonmen Stage Traditional 4th Quarter Rally

Staging their traditional fourth quarter rally, the New Concord Redbirds tipped the highly touted Murray High Tigers 29-25 Saturday night in the finals of the First Regional tournament held at Mayfield, thereby writing its way into the state high school tournament at Louisville being held today (Thursday), Friday and Saturday.

Pat McCuiston's Redbirds had won 20 games and lost only 1 of their regular schedule. In the regional meet Concord defeated Melber in the first round 24-19, topped Arlington 24-23 in the semi-finals and Saturday night downed a good Murray High quint whose season record was outstanding.

Concord's aggressiveness and the Tigers' inability to find the hoop spelled the difference. The Concordians were like an angry swarm

of bees as they threw Murray off-side time and time again.

Concord commanded the lead most of the way Saturday night. Murray took the lead early in the game, however, Hamlin promptly retaliated for New Concord. From a 4-4 tie the Redbirds moved into a 10-5 lead at the quarter and made it 13-5 a few moments later.

The Hollandmen came back and whittled this lead to a single point, 13-12 at the half. The Murrayans made the score 16-13 soon after the third period began and with 14 points to their credit since Concord last scored the Tigers seemed on the way to victory.

A couple of charity tosses by Hamlin and a basket by Buchanan put New Concord out in front 17-16. The quarter ended with Murray leading 20-19.

Roberts' field basket after a quick break regained the lead for the Birds in the first minute of the fourth frame and they kept it the rest of the game. Their advantage ranged from 1 to 6 points and it was apparent at midway of the

final stanza that it was Concord's ball game.

It has been a season of champions in Calloway net circles this year. In the County tourney Almo walked off with the honor. Murray High took district honors a few days later and now Concord rides high on the wings of success by gaining the regional crown.

Saturday night's victory earned New Concord its first representative in the state tourney. New Concord succeeds as First Regional

champion Clinton Central, which went out in a district tourney game this year before Fulton.

Lineups:

Requirements for flying the applicant must hold a private pilot's certificate or better and be a loyal American citizen. For ground work, the applicant must be a loyal American citizen.

Training courses will be given all applicants. Any one interested may contact Miss Mayrell Johnson any time this week. A few first aid, infantry drill, defense against gas, and civilian defense cooperation and coordination.

## Indigestion Distress Relieved, Gains 16 lbs.

Husband Also Benefited By Retonga, Declares Mrs. Roberts, Tells of Trouble

MRS. JOHN ROBERTS

Happy and grateful over years of distress, promptly relieved, and gain in appetite, steady nerves, and strength, Mr. and Mrs. John Roberts, well known residents of 1208 Morgan Ave., Camp Taylor, Ky., both strongly endorsing Retonga.

"I took Retonga first and it did me so much good that Mr. Roberts then tried it," states Mrs. Roberts. "I was feeling terribly worn out. I was badly troubled with constipation. I felt full of acids and poisons. My appetite had dwindled away to nothing, and it seemed to me that I could get no relief at all from the gas on my stomach. I had a dull, wearing headache practically every day, and I was so nervous I could hardly get to sleep. The relief Retonga brought me is little short of marvelous. My appetite is fine, all that distress I suffered from headaches, constipation, and nervousness is relieved, and I have gained back sixteen pounds of my lost weight. I feel

simply splendid. Mr. Roberts was suffering distress all the time from indigestion, loss of appetite, and sleeplessness, and Retonga relieved him just like it did me. We think it the greatest medicine I ever put in a bottle."

Retonga is a purely herbal digestive tonic combined with Vitamins B-1. Accept no substitute. Retonga may be obtained at Wall's Drug Adv.

## Homer Key, Coon Huntingest Man in Kentucky, Writes To His Friends

(Note by the Editor:—The season just closed was a poor one for Homer Key of Hazel, Ky. He got only 47 coons. "My average is nearer 60 a year," he states. Homer says he is the "coon huntingest" man in Kentucky and perhaps in Tennessee, too, and those who know him do not dispute his claim. Below is what Mr. Key calls "a letter to all my coon hunting friends," in which he tells of one night in the swamps in February this year.)

Homer Key with some of his dogs and a part of his catch this season.

One cold night in February my brother and I, with our dogs Sammie and Linda, took off to the Donnie Hoe swamp for a big coon hunt.

The night air was fresh and cold. You could see your breath in front of you every step, but our dogs were feeling fine and glad to get a change to get in the swamp again. It seems that they know good nights to go coon hunting. We had to go 25 miles to this swamp. There was a good location in this swamp to strike a coon trail. It was an old custom of mine to walk along beside the creek. Coons do not feed on top of hills, they like swamp land better. Jesse and I walked some distance up the creek and came to a fallen tree across the creek. This was a good place to stop for a few minutes. The air was very quiet and every sound was perfectly still. During the past few hours we had done a lot of work which put sweat drops in the air for us. Jesse had looked at me and I at him. Neither of us said a word for a few minutes. Both of us standing our ears to hear the dogs again. When we heard them again Jesse said, "Homer, they have struck a trail. We could not see still and keep him from coming down. When

longer, so we started on down the swamp. We stopped again. By that time they were getting the trail warmed up. We stopped again. They were circling the tree and then began to bark freely. We made our way through the swamp. When we got close to our dogs we noticed they were worried. They would bark at this tree and then run down the swamp and bark at a tree down there. When I turned my searchlight on the tall slender tree, it only required one look. Jesse saw the small back of the coon. I ran back to the other tree. I asked Jesse to go to the other tree and see what was the matter with the dogs and I would stay at the tree to keep the coon from leaving. When Jesse had reached the other tree, he called back to me, "Homer, look at this tree. My eyes shining in this tree."

"Homer, they have struck a trail. We could not see still and keep him from coming down. When

I left the tree I took the oil lantern and went to the other tree. I took off my hunting coat, tied it around the tree and set the lantern at the bottom of the tree. I got Jesse's dogs and gun and went back to the first tree. We got set around the tree and Jesse with his .22 rifle got his light set and fired. Down came the coon. The dogs had hold of him by the time he hit the ground. He began to squawl. I was afraid the other coon would jump out so we ran back to the tree. Sure enough, when we got to the tree, the old coon was going from one side of the tree to the other. After a few minutes we placed ourselves around the tree. Jesse with his rifle and light got his sight on the coon and shot but missed him. This started the dog barking more than ever and the coon went as high in the tree as he could.

Jesse got his position to shoot and shot the second time, hitting the coon in the hind leg and the old boy turned around and started down the tree. He came down slow and seemed to be looking at the light and the dogs. He came down within about 15 feet of the ground on the lower side of the tree and jumped to the ground as far from the tree as he could. When he hit the ground, the dogs grabbed him. Jesse and I were close by with plenty of light. We

wanted to see a good fight. We knew the coon was not hurt badly. The coon began to squawl and in a moment he was dead. By this time it was getting late so Jesse and I gathered up our lights, gun and two coons and took a back trail to our car which was a long way from us. We knew that when we got back to our car we had to drive 25 miles back home.
